

Wooyoung Choi

최우영

M.S. Student, Department of Information Display
HXRLAB, Kyung Hee University | Advisor: Prof. Uijong Ju

ORCID: 0009-0000-0445-6281 | [ResearchGate](#) | [University profile](#)

EDUCATION

Current	Kyung Hee University M.S. student, Department of Information Display; HXRLAB.
Mar 2019 - Feb 2025	Dongguk University Bachelor's degree, System Semiconductor Science.

PUBLISHED WORK - CONFERENCE POSTER

2026	Perceptually Optimized Chromatic Power Saving in XR Using Binocular Asymmetry Wooyoung Choi and Uijong Ju. IEEE VR 2026 Abstracts and Workshops (VRW), pp. 1141-1142. DOI: 10.1109/VRW70859.2026.00245 Best Poster Award - Honorable Mention.
------	---

RESEARCH AND PROJECTS

From March 2026	Deep-Learning-Based XR Visual Fatigue Prediction and User-Perception-Informed Adaptive Mitigation
March - December 2026	Adaptive Blue-Light Control for XR HMD Power Saving and Visual Fatigue Mitigation

RESEARCH EXPERIENCE

Jul 2024 - Aug 2025	HXRLAB Assistant, Kyung Hee University Research on VR rendering optimization using color sensitivity of the dominant and non-dominant eyes.
---------------------	---

TEACHING AND ACTIVITIES

Spring 2026	Teaching Assistant - Computer Coding and Practice Course title: 컴퓨터코딩및실습
Apr - Sep 2025	SAFEXR: Idea Commercialization Seoul, South Korea.
Jul - Aug 2023	KIDS Display School Coursework in display driving circuits and TFT driving methods.
